

INFORMATION ABOUT REIMBURSEMENT AND PAYMENTS

With a referral letter

Avonddermatoloog offers reimbursed, non-contracted care. This means that, with a referral letter from your general practitioner (GP), you will be reimbursed for 60–100% of the treatment costs by your health insurer (depending on your policy; we kindly ask you to check the reimbursement percentage with your own insurer, as Avonddermatoloog does not have access to this information), after your deductible (usually €385 per year) has been met.

Invoices are handled through our billing partner, Infomedics. You will receive an invoice from Infomedics by post. You must then submit this invoice to your health insurer yourself. The insurer will reimburse (part of) the amount to you (or deduct it from your deductible). You pay the full invoice amount to Infomedics, after which Infomedics will transfer the payment to us.

Without a referral letter

You can also visit Avonddermatoloog without a referral from your general practitioner. In that case, you will be responsible for paying the full amount yourself, and your health insurer will not be involved in this process (your deductible will not apply, and no reimbursement is possible through your insurer).

You will receive an invoice directly at the clinic (digitally and/or on paper), which must be paid directly by debit or credit card. This invoice cannot be submitted to your health insurer.

Current rates

For the current rates of a consultation, multiple consultations, the cost of, for example, a biopsy, allergy testing (TrueTest 36 patch test), phototherapy, and other treatments, please visit <https://www.avonddermatoloog.nl/en/tarieven>.
