

INFORMATION ABOUT REIMBURSEMENT AND PAYMENTS

With a referral letter

Avonddermatoloog provides reimbursed, non-contracted care. This means that with a referral letter from your general practitioner, you will receive 60–100% reimbursement of the applicable fees from your health insurer (depending on your insurance policy; we kindly ask you to check the reimbursement percentage with your own health insurer, as Avonddermatoloog does not have access to this information), after your deductible (usually €385 per year) has been used up.

Without a referral letter

You can also visit Avonddermatoloog without a referral from your general practitioner. In that case, you will pay the full amount yourself, and your health insurer will not be involved in the process (your deductible will not apply, and no reimbursement is possible through your health insurer).

Infomedics

Almost all invoices are collected through our billing partner: Infomedics. You will receive an invoice from Infomedics at your home address or digitally (by email).

If you have a referral letter from your general practitioner, you must submit the Infomedics invoice to your own health insurer yourself. The health insurer will reimburse you. You then pay Infomedics. Infomedics subsequently pays us.

If you do not have a referral letter from your general practitioner, you cannot submit the invoice to your health insurer, and you will pay the full amount to Infomedics yourself. Infomedics will then pay us.

Current rates

For the current rates of a consultation, multiple consultations, the cost of, for example, a biopsy, allergy testing (TrueTest 36 patch test), phototherapy, and other treatments, please refer to <https://www.avonddermatoloog.nl/tarieven> .
